

Port Pillows for seatbelts.

All you need is:

2- 7x 4 inch fabric rectangles

Velcro- 5/8" (use sew on Velcro, not sticky backing)

Fiber fill stuffing

Directions:

Cut two 7" x 4" pieces of fabric

Cut two 3.5" strips of Velcro

Machine baste one side of the Velcro to right side of fabric- fuzzy/loop side up. Stitch only one end of Velcro.

Baste the other half of Velcro strip to opposite side-loopy side down.

Put fabric pieces RST (right sides together) and make 1 seam all the way around leaving an opening about 1 1/2"-2 inches at one end. Be sure not to catch the free ends of the Velcro pieces in the seam. Turn right side out and stuff. Whip stitch or sew close.
